

The largest resource user fields of science in 2018–2020

Note. The five largest disciplines for each year have been selected measured by the use of billing units. Medical and health sciences and Engineering and technology all include disciplines of the main sections. The billing unit is the unit used by CSC to monitor the use of resources.

Source: CSC's ReppuDashboard usage statistics (2019–2020) and IdM database (2018).

Shares of resources used by disciplines.

Physical sciences 32% in 2018, 23% in 2019 and 24% in 2020.

Biological sciences in 2018 26%, in 2019 30% and in 2020 16%.

Medical and health sciences in 2018 4%, in 2019 4% and in 2020 10%.

Chemical sciences in 2018 11%, in 2019 15% and in 2020 8%.

Astronomy and space science 6% in 2018, 5% in 2019 and 7% in 2020.

Computer and information sciences 4% in 2018, 6% in 2019 and 6% in 2020.

Engineering and technology 12% in 2018, 8% in 2019 and 6% in 2020.
